

**Don't let varicose and spider veins keep your legs in hiding!**

CharlotteRadiology®  
Vein Centers

At Charlotte Radiology, we offer the latest in minimally invasive treatments for varicose and spider veins.

Our physicians are interventional radiologists with over 115 combined years of experience performing vein procedures.

And our dedicated patient case managers are here to help you through every step of the process with a customized treatment plan.

Together, our team offers treatments to provide you with the lasting relief you need AND the desired results you want, to get you back on your feet!

**If you are experiencing any of the following symptoms, you may be a good candidate for vein treatment:**

before

after

- Visible varicose and/or spider veins
- Leg discomfort – caused by prolonged standing or sitting
  - » Itching, tingling, cramping, numbness, burning sensation in the legs or feet
  - » Tired, fatigued, or heavy feeling in the legs
  - » Restless legs, cramping while sleeping
- Discoloration of the skin on your legs and/or ankles
- Family or personal history of symptomatic varicose veins

**Live a life free from varicose and spider veins and love your legs again.  
Schedule your consultation appointment today!**
