

# What to Expect: New Patient Consultation

CharlotteRadiology®  
Vein Centers

At Charlotte Radiology, our new patient consultations are a critical step in our vein treatment process.

Every patient is different, and a thorough, detailed consultation with our clinical team is a key element in building your customized treatment plan.

## What to Expect at Your Consultation

Clinical explanation of venous system/vein health from our team

Detailed discussion of your symptoms with our clinical staff

Photographs to document your current state

Vein mapping ultrasound, including clinical explanation of findings from our specialized technologists

Discussion of your vein health and customized treatment plan with a physician specialized in the diagnosis and treatment of venous disease

Detailed timeline of treatment plan and next steps

**Treating your varicose or spider veins is an easy step toward a better, healthier you. Schedule your consultation today!**
